Nothing.

It would be interesting to include an overview of software that can help with academic writing, such as Grammarly or ChatGPT.

I do not think that anything is missing

7. Which activities or topics did you consider the most attractive or interesting?

The best part is when Eoin check our real text from papers/dissertation. That way we see our actual errors and "ticks" writing.

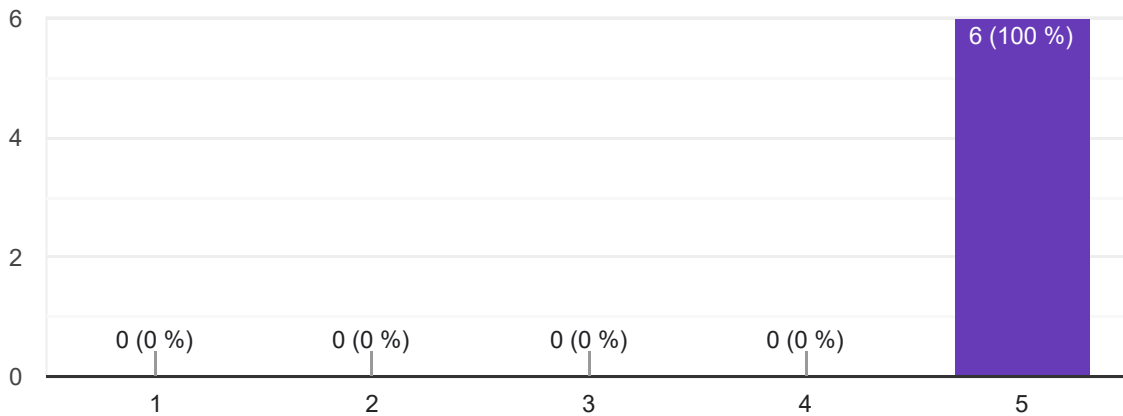

Both in-class activities and homework were engaging and interesting. They were well-tuned to the English level of the class.

The session about collocations was the most interesting for me
